CAREER OBJECTIVE

Aspiring Full Stack Developer with a strong interest in building web applications. Looking for an opportunity to learn and continue to real-world projects.

EDUCATION

National Engineering College, Kovilpatti

Expected MAY 2027

Bachelor of Engineering in Computer Science

CGPA - 8.09

St. Ignatius Convent Higher Secondary School,
Palayamkottai

BATCH - 2022

Percentage - 86%

PERSONAL DETAILS

Name : James Infant Rachna R

Father Name : Ranjith Jeyaseelan J

DOB : 06/10/2005

Address : 9A, Parisutha Avi Street,
Palayamkottai
Tirunelveli - 627002

Contact No : 7010400955

Hobbies : Drawing , Crafts, Designing

Area of Interest: Full Stack, UI/UX Design,
DevOps Basics

SKILLS

Programming Languages: C++, Python, JavaScript

Web Technologies: HTML, CSS, React, Node.js, Django

SOFT SKILLS

Problem-Solving

Team Collaboration

Leadership

Adaptability

CERTIFICATION COURSES

Python for Beginners - (GL)

Project Management Foundations - LinkedIn Learning

React - Hackerrank

Web Development in React.js: Development Basics - Infosys SpringBoard

ACHIEVEMENTS

Query Fiesta (Winner)

Homepage Hustle by CSI Event (Winner)

Crafted Elegance - Winner

INTERNSHIPS

Codsoft - Web Development (Online)
(10 MAR 2025 - 10 APR 2025)

Prodigy Infotech - Web Development (Online)
(15 JUNE 2025 - 15 JULY 2025)

PROJECTS

Theatre Management System - (OOPS)

Designed an object oriented theatre booking system with seat allocation, show scheduling, and ticket generation. Implemented core OOP concepts like inheritance, polymorphism, and abstraction for modularity.

Flight Reservation System - (JDBC + H2 DATABASE)

Built a full flight booking workflow with CRUD operations, seat selection, and real time validation using JDBC. Integrated H2 in memory database for fast data access and persistent booking records.

College E-voting System - Django

Developed a secure online voting portal with user authentication and role based access. Ensured one vote per student logic, ballot tracking, and admin dashboard insights.

E-commerce - (MERN Stack)

Developed a fullstack e-commerce application with product listings, cart, and secure checkout. Implemented user authentication, admin management, and a wishlist feature with friend comments.

Personal Finance Manager (Integrated with Firebase)

Created a finance tracker to manage income, expenses, and monthly summaries with real time Firebase syncing. Implemented secure login and cloud-based data storage accessible across devices.

Movie Review and Rating System - Django

Built a platform for users to post reviews, rate movies, and view aggregated ratings. Added search, categories, and an admin panel to manage movie data and user submissions.
